I understand that my portable ice fishing shelter must be properly secured to the ice or frozen waters by means of an industry standard "screw anchor" so as to prevent the shelter from being blown from its location by seasonal winds. The screw anchor must be driven into the ice or frozen water and attached to the ice shelter by tether sufficient to secure the shelter to the ice or frozen water.

I understand that I must remove my ice fishing shelter by March 1st. If I fail to do so and the Village of Wauconda must remove and dispose of it, I understand that I will be liable for all costs of such removal and disposition of my ice fishing shelter. Such costs shall be in addition to any fines or penalties imposed for failure to timely remove my ice fishing shelter.

On or before March 1 of each fishing season, the shelter must be removed at the end of each fishing day and shall not be left unattended at any time after March 1.

In addition to the number, the owner shall attach to the shelter his name and address as required by state fishing laws. No shelter shall be used without being so marked or identified.
